eTrainia

Empowering the Future of Learning

A Product of Next Orbit Technologies LLC
Dubai, UAE.

e-trainia: A robust ERP solution

e-trainia is a powerful, all-in-one Learning and Training Management System (LTMS) designed for corporate training departments, academic institutions, skill development centers, and government training agencies. e-trainia unifies Learning Management (LMS), Training Management (TMS), HR, Finance, Payroll, and Operations—into one integrated and intelligent digital ecosystem.

Our mission is simple: to enable training institutions and enterprises to deliver world-class learning experiences without the complexity of juggling multiple disconnected systems.

What Sets e-trainia Apart?

Unique Selling Propositions of e-trainia

Training-Centric Features

- ❑ **Corporate Learning Support:** Tailored for internal and enterprise training needs.
- ❑ **CIT (Classroom, Instructor, Training) Framework:** Built to manage complex instructor-led and classroom training programs.
- ❑ **Practical Learning Tools:** Hands-on modules for skill-based training and workshops.
- ❑ **Blended Learning Support:** Combines online and offline learning for a flexible experience.
- ❑ **RTL Language Support:** Full right-to-left language compatibility for Arabic and other RTL languages.
- ❑ **Formula-Based Evaluation:** Custom grading formulas and logic support.

Security & Access Control

- ❑ **Content Protection:** Secures intellectual property and learning content from unauthorized access.
- ❑ **RBAC (Role-Based Access Control):** Granular permission management for learners, instructors, and admins.

Unique Selling Propositions of e-trainia

Unified Digital Platform

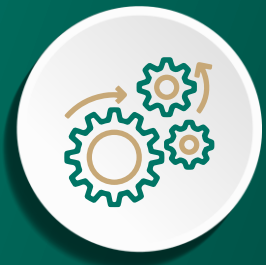

- ❑ **All-in-One Platform:** Integrates LMS, TMS, HR, Finance, and more.
- ❑ **Mobile App (Android & iOS):** Native apps for students and instructors on the go.
- ❑ **Center/Classroom Management:** Centralized tools for scheduling and physical space allocation.
- ❑ **Integrated HR for Instructors:** Manage instructor records, attendance, and payroll seamlessly.

Operational Excellence

- ❑ **Procurement Module:** Track and manage training-related procurement needs.
- ❑ **Material Management:** Efficiently handle learning materials, kits, and assets.
- ❑ **Resource Allocation:** Smart distribution of trainers, venues, and tools across sessions.
- ❑ **Logistics Management:** Built-in tools to handle equipment, transport, and venue needs.

Unique Selling Propositions of e-trainia

Content Delivery & Automation

- ❑ **Drip Content Scheduling:** Timed release of modules to maintain learner engagement.
- ❑ **SCORM Compliance:** Adheres to international standards for training content delivery.
- ❑ **Custom Front-End Options:** Fully customizable web presence with dynamic themes.
- ❑ **Dynamic E2E Front-End Updates:** Real-time updates to front-end content and structure.

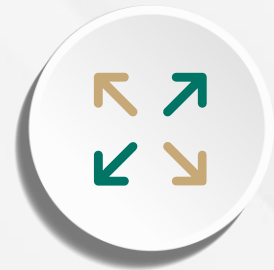

Finance & Payments

- ❑ **Integrated Finance Management:** Unified ledger for budgeting, invoicing, and payroll.
- ❑ **Payment Gateway Integration:** Secure support for online transactions and fee collection.
- ❑ **Refund & Rescheduling Tools:** Hassle-free handling of cancellations, refunds, and class changes.

Unique Selling Propositions of e-trainia

Scalability & Integration

- ❑ **External API Support:** Easy integration with third-party tools and platforms.
- ❑ **Bulk Student Management:** Efficiently manage high-volume enrollments and data imports.

Customizability & Support

- ❑ **Backend Theme Customization:** Personalize the admin dashboard and interface.
- ❑ **Trained Product Engineering Team:** Expert support for deployment, onboarding, and scaling.
- ❑ **Faster Turnaround Time:** Optimized workflows ensure rapid implementation and updates.
